FAIRBANKS ◦ 64.75" × 35.75" × 22"

This tub can also be specified with the extended deck on the front side, enabling the bather to sit and turn into the tub.

Fairbanks is a contemporary freestanding tub with very clean lines and concave sides. It features a flat, thin rim, center drain and an integrated deck on one side for mounting faucetry.

This elegant tub is available in Acrylic CXL™ or DoloMatte™, both American-made materials. Acrylic CXL is glossy cross-linked continuous cast acrylic, the finest in the world. DoloMatte is an MTI exclusive, innovative solid-surface with a velvety-soft touch and feel. Both are reinforced with a thick layer of fiberglass/resin/titanium backing for added strength and increased insulation. The color of this material is consistent throughout its thickness, making its finish renewable for long-term durability and beauty. The non-porous surfaces are easy to clean and extremely scratch- and stain-resistant.

Fairbanks is available standard in white as a soaker or with MTI's state-of-the-art air bath system, designed to be not only the most therapeutic in the world, but also the most hygienic.

SEABROOK • 66" × 31" × 22.5"
SEABROOK 2 • 57.75" × 30.75" × 22"

Seabrook is a graceful freestanding tub of transitional design, featuring a gently rolled lip, central drain and a discreet integrated overflow. Now available in a smaller 58" x 31" size, ideal for tight spaces and remodeling applications.

This charming tub is handcrafted using MTI's proprietary mineral composite mixture, largely composed of natural minerals mined from Georgia's earth mixed with resins. The glossy finished product is solid thru and thru, smooth, lavish and warm to the touch with high insulation properties to help keep bath water warmer longer.

Seabrook is available in white as a soaker or with MTI's state-of-the-art air bath system, designed to be not only the most therapeutic in the world, but also the most hygienic.
