IMPORTANT ORDERING & INSTALLATION INFORMATION

- Before ordering or installing, please consider future access to equipment.
- Must specify left- or right-hand drain when ordering.
- Non-removable skirt provides no access to equipment. Must have end-access for servicing.
- Radiance placed on airbath floor will affect placement of air jets.
- Use proper bedding compound to fully level and support the tub.
- Tubs equipped with an air system include a factory-installed pre-leveled foam base, negating the use of bedding compound when installed on a flat level subfloor.
- System components may extend beyond the perimeter of deck.
- Advise MTI when planning to use a glass enclosure. Relocation of controls may be necessary.
- Suction and control locations may vary.
- All tubs are compliant with ASTM C 1028-07 coefficient of friction. DoloMatte meets ANSI A137.1/A326.3 coefficient of friction and AS HB198:2014 slip tests.
